COMP 1017

FTP Cheat Sheet

host: dmitstudent.ca

user: your NAIT username
note: do not include the domain (@nait.ca)

pass: default is your student ID no.
note: if you logged into admin panel and changed
your password, use whatever you changed it to.

port: leave this blank

Once logged into Filezilla, drag and drop your framework folder from your computer to the server. Make sure it goes into `public_html`.

If your website is not in the public directory, you won't be able to access it from a browser.

Next, navigate to your website by going to:

`yourusername.dmitstudent.ca/your-folder-name`

If you do not have an `index.html` in the root of your folder, your website will not work.
